

Inflammatory Bowel Disease Standardized Care Protocols

14. IBD ADMISSION – PATIENT CARE ORDERS

Nurse/Support Staff:

1. Under the direction of the physician, initiate the patient care orders ([#1](#)) for a patient being admitted to hospital.
2. Confirm admission ward site and have the IBD physician sign the orders.
3. Fax or hand deliver the following to the appropriate ward: the patient care orders, flowsheet from the patient's chart and the two most recent clinic letters.
